## PROFILE

Hello there! I'm a dedicated Java Full Stack Developer known for my passion in creating resilient and inventive web solutions. I excel at simplifying complex ideas into easy to use applications. My goal is to leverage technology to fuel business growth and enhance user experiences

---

## SKILLS

- Languages: Java
- Front-End: HTML, CSS, JavaScript, React
- Back-End: Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools & Technologies: Git, GitHub

---

## PROJECTS

### Instagram Clone

Developed a full-stack Instagram clone using Node.js, Express.js, and MongoDB, implementing user authentication and authorization using Passport.js. Multer for handling image uploads and storage.

### InterShala API

Develop an Intershala API-powered Web App with ReactJS and MONGODB Database. Gain hands-on experience in frontend development, database integration, and API usage

### WhatsApp Clone

Designed and developed a real-time chat application resembling WhatsApp using Socket.io and Express.js. Implemented user authentication and authorization features to ensure secure access to the application. Integrated Socket.io for real-time communication between the server and clients, enabling instant message delivery.

---

## CERTIFICATES

- IEEE International Conference
- Backend Developer
- SpringBoard

---

## EDUCATION

Sage University Bhopal  
Bachelor Of Engineering and Technology-8.6 CGPA  
Major in Computer Science

2021 – 2025
